INTRODUCTION LETTER

With the highest respect and humility, I wish to introduce myself as a duly authorized National Identification Number (NIN) Enrollment Agent, under the approval of the National Identity Management Commission (NIMC) and supervision of 2 Plus Technologies.

My primary responsibility is to assist citizens in the proper and timely registration for the National Identification Number (NIN) for a critical initiative by the Federal Government to enhance national planning, security, and access to social services.

I seek Your kind support, guidance, and permission to carry out this essential service within your esteemed domain. I am also open to collaborating with local leadership to ensure smooth, respectful, and culturally appropriate operations, particularly in reaching grassroots communities.

I am confident that with your blessing and the cooperation of your council/management, we can make this exercise seamless and beneficial to all.

Thank you, for your anticipated support and audience. Please accept the assurances of my highest regard and loyalty.

Yours faithfully,
